EAST SIDE NEWS

This Date in History

Life and Character Reading.

June 3.
People born on this date have some faults to overcome before they can obtain the best results out of life. These people have a scattering of force and great unrest. They are natural complainers and growlers and imagine evil. They are never still, though a responsibility will settle them with as much alacrity as those born under any other sign.
The finest efforts of the poet and writer that comes under this sign are reached by inspiration and not by analysis or previous intellectual preparation. Both Emerson and Margaret Fuller Ossoli were born under this sign and are splendid illustrations of what Gemini men and women can do. The governing sign of this birthdate is Gemini, the sign of the twins, and the governing planet is Mercury. The gems are beryl and an aquamarine. The astral colors are red, blue and white.

Are you a machinist, a metal worker or an iron structural worker? Are you out of a position? Use the Want Ads and they will surely secure you a position which will be worth the efforts.
